

**ECOSYSTEM
RESTORATION**

Two days Virtual Celebration of 47th World Environment Day

(Date & Time- 5th & 6th June, 2021, 2:00 pm onwards)

Jointly Organized by
Department of Geography & NSS Units
of
Naba Barrackpur Praffulla Chandra
Mahavidyalaya

Concept Note

World Environment Day was established by UN General Assembly on the first day of the Stockholm Conference on Human Environment which was held in Stockholm, Sweden from June 5- 6, 1972. In 1974, the first World Environment Day was celebrated with the theme "Only One Earth". Since then World Environment Day is celebrated annually on 5th June and various activities for awareness and protection of Environment.

Earth needs help. The climate emergency, the loss of nature and deadly pollution threaten to destroy our home and eliminate many of the millions of species that share this beautiful planet with us. But this degradation is not inevitable. We have the power and the knowledge to reverse the harm and restore the Earth – if we act now. That is why the United Nations has declared the Decade on Ecosystem Restoration. Starting on World Environment Day 2021, individuals, groups, governments, businesses and organizations of all kinds can join forces in a global movement to prevent, halt and reverse ecosystem degradation and secure a sustainable future for all.

The whole programme is a commemoration of this event and an attempt to encourage awareness and action for the protection of our environment by encouraging students to participate and showcase their talents by exhibiting environment related creative's in terms photographs ,drawings etc and a short film. The event will also host a number of lectures by a few eminent personalities on the same topic.

Target Audience: Our beloved students, teaching community, researchers, academicians, policy makers and other interested candidates. (Feedback link and E-certificates will be provided after full attendance of the two days programme)
